Judy introduced our speaker of the evening, Professor Tim Drake. Dr. Drake presented the group to the history and immigration of the French Huguenots. The first use of the term Huguenots was at the turn of 1520 to describe French dissenters within the Roman Catholic Church. They tried to "purify" the church before they left. There were eight bloody wars before peace was attained.

Between 1685 and 1700, an estimated 200,000 to 900,000 left France for other parts of the world... only 1,000 to 1,500 remained in all of France. New York, Virginia, and South Carolina were the preferred places for settlements in 1685-1710. In South Carolina most settled along the Santee River (known then as the "French Santee") and were successful in rice production. The Huguenots contribution was social, economic, agricultural and religious to the colony of Carolina.

Refreshments for the meeting were provided by LaMarr Brooks and Judy Long.

There were 28 in attendance.

Brenda Meyer, Secretary
